

## 2025-26 DBF Q&A#4

#	Question	Graphics
1	<p>Are we allowed to use stands to brace the plane during staging/Ground Mission to help keep the wheels on the ground?</p> <p>Answer: Stands or any devices for securing the airplane to the ground are not allowed. The airplane must remain on the ground on its landing gear during GM and staging. As always, the observer or pilot will be allowed to hold the airplane steady in windy conditions in the staging box.</p>	
2	<p>In the event of a motor failure, are teams required to re-tech with the new motor?</p> <p>Answer: No.</p>
